

# Electronic Crane Scale AGE-120

Revisión 01 | Reviewed by JN

airpes®

Infrared telecommander

Charger

## General information:

The AGE-120 electronic crane scale has been designed to be hung up from the hook of the overhead travelling crane, arm crane, crane vehicle, tower crane, etc. from where it is going to work.

It is an appropriate device for the control of entering and leaving of a product, control of storage, checking of the stock, etc.

The AGE-120 has the option of retro-illumination and memorisation of weighings through the incorporation of an infrared commander.

## Characteristics:

Digits: 5 LCD 1,2" (opción back-light)

Work Temperature: -20°C +60°C

Functions: On/Off, Cero, Tara

Optional: Sum, Total and Erase (through telecommander)

Protection: IP 55

Feeding: 6V DC

Accuracy: +/- 0,1%

Capacity (kg)	Step (kg)	Dimensions (mm)				Total weight (kg)	
		L1	L2	L3	L4	Sin acc.	Con acc.
500	0,2	134	244	504	379	3,5	5,2
